

Model AS03006, M1
AR System
1MHz–3GHz

The AS03006 Special Package consists of the following AR RF Microwave Instrumentation equipment listed below. The equipment is housed in a 16U (28" panel height) rack. All internal RF cabling is included and AC power is distributed within the rack terminating in a single 120 VAC, 15A plug. The SC1000 System Controller routes signals from the single front panel RF input connector to the two amplifiers inputs and from their corresponding outputs to the single front panel RF output connector. The M1 version is an equipment only package and is supplied without the rack enclosure and AC power distribution. Please refer to individual product specification sheets for details.
