

**Model EM101xxCF Series
Electromagnetic Clamp Calibration Kit**

The Model EM101xxCF is the calibration kit required when using the EM10123 or EM10132 electromagnetic injection clamps.

Mechanical:

Consists of the following:

- Aluminum plate with mounting holes for calibration resistors
- Calibration cable
- Two 150-50 ohm calibration resistors

Model	Application
EM10123CF	EM10123 Calibration Fixture
EM10132CF	EM10132 Calibration Fixture
