

Powerful Medicine!

Whether you're creating and testing new medical equipment or building established medical devices, AR has the power amplifiers you can trust.

With infinite VSWR tolerance to stand up to the toughest environments. Go ahead and test the limits till you find the right power/frequency combination. AR amps won't back down. And when you find the perfect combination in the lab with your AR RF/Microwave Instrumentation amplifier, then AR Modular RF can build the custom system or modules you need for your new device.

AR amplifiers also deliver the features that are crucial to clear, accurate test results. For powering NMR, MRI, Ablation, Ultrasound, Sputtering, Plasma Cleaning, and other lifesaving medical devices, AR has exactly what you need ... and the amplifiers you can depend on.

We have high-power amplifiers and accessories designed for EMC, Research, and a variety of OEM applications. With frequencies ranging from DC to 45 GHz and power from 1 to 100,000 watts.

AR products are backed by the best and most comprehensive warranty in the industry. We back them better because we build them better. And we support our customers with a global network that reaches the far corners of the world.

AR has been a world leader for 40 years; we'll be here when you need us – today, tomorrow and always. To learn more, call AR RF/Microwave Instrumentation at 215-723-8181 or AR Modular RF at 425-485-9000. We also invite you to visit us at www.ar-worldwide.com.
